

Welcome to Duncan

In our present world of economic instability it is comforting to be a part of a community that is supported by a Chamber of Commerce who has a vision for our local economic stability and a strong determination to make it happen.

Your Duncan Chamber of Commerce is led by CEO and President Chris Deal. Our board of directors is a committed group of community leaders who work closely with The City of Duncan, Main Street Duncan, The Duncan Economic Development Foundation, and other community based organizations to strengthen our economy and our future growth.

The Chamber's perspective is consistent in promoting its membership from the largest to the smallest to succeed in business and to promote quality of life. Our 480 plus membership is made up of large and small businesses, non-profit organizations, and individuals who corporately and individually play a major role in the success of our Chamber.

We want to encourage you to take advantage of the numerous programs and benefits offered by the Chamber and to seize the opportunities provided by the Chamber to network and build relationships that will directly benefit your business and the success of our Chamber and economic stability.

I want to express my appreciation for the opportunity to serve as your 2013 Chairman of the Board and to thank you for your personal involvement and commitment to the Duncan Chamber of Commerce.

Sincerely,

Jerry Shaffer, 2013 Chairman of the Board
