Also located within Fuqua Park is the **Rock Island 905 Historical Society**. Duncan saw the arrival of the first scheduled Passenger train in 1892. In the early days, the town prospered with the help of the Rock Island Railroad, as did our great state of Oklahoma. The 905 Steam Locomotive has been a symbol of that heritage since it was first driven down Oak Street and placed in Fuqua Park in 1954. It has been enjoyed by many a resident and visitor, both young and old. The Rock Island 905 Museum & Gift Shop is open Tuesday through Saturday from 10:00 AM to 5:00 PM.
